timeware® feature in focus – Leave Management...

Leave management in timeware® Professional offers your clients a clear, efficient way to handle staff absences.

From managing annual leave and sickness to tracking compassionate and unpaid leave, every request in **timeware® Professional** – whether planned or unplanned – is processed with complete visibility and control. The built-in authorisation workflow ensures that all leave is approved in accordance with company policy, helping to avoid staffing shortfalls and maintain operational efficiency.

Automated holiday entitlement calculations and real-time updates to planners significantly reduce administration while improving accuracy. It's another powerful feature that sets **timeware®** apart – making it easier for businesses to stay organised, efficient, and compliant when managing employee leave.

Help your clients streamline leave tracking and reduce admin headaches with timeware® Professional's powerful absence management tools.

Case Study – UK Electronics...

We've produced a case study video featuring **UK Electronics**, a small business with around 70 staff, who have successfully used **timeware® Professional** for over 20 years. Their system includes bespoke customisations to suit their operation – a perfect example of our flexible, customer-focused approach.

The video also showcases the **Suprema BioStation 3**, demonstrating how face authentication can enhance both security and efficiency across the business, while reducing the risk of buddy punching. It's a clear illustration of how even smaller companies can benefit from a tailored, high-performance **time and attendance** solution from **timeware®**.

Employee number:	70+
Company turnover:	£7m+

Employee Self Service...

A workplace with limited infrastructure?

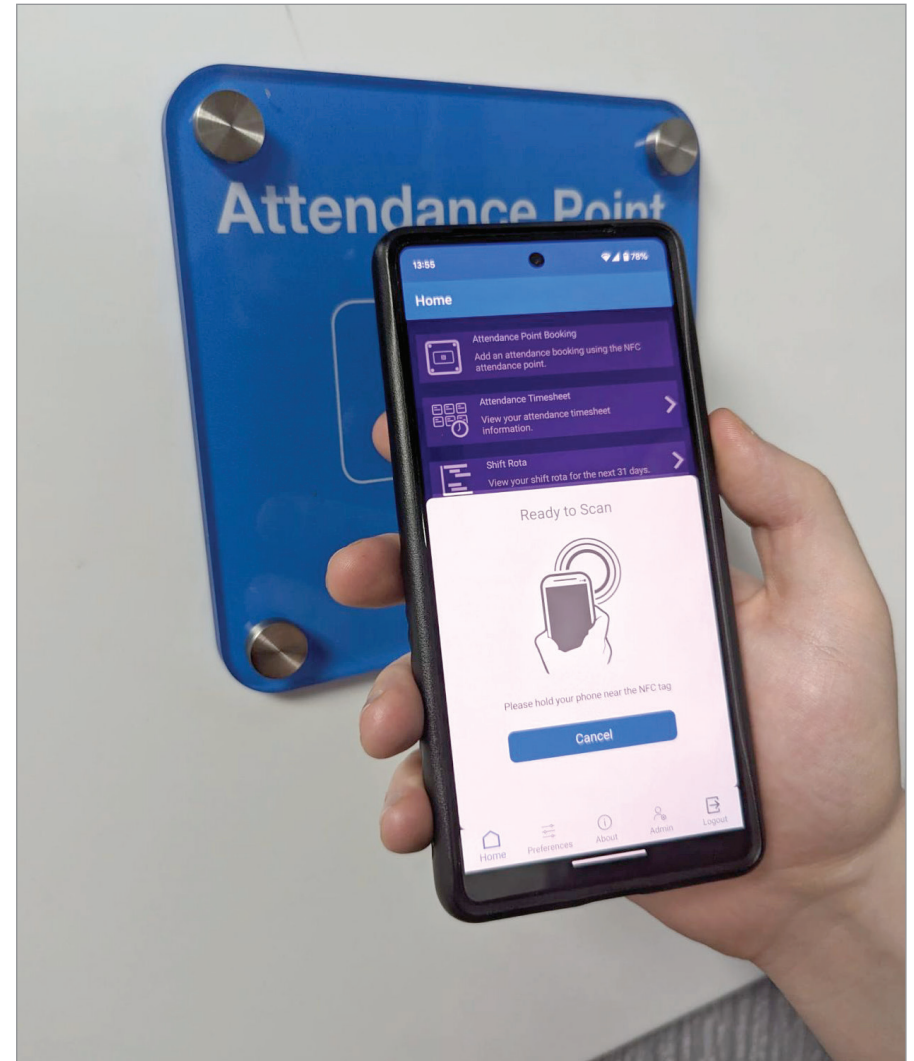

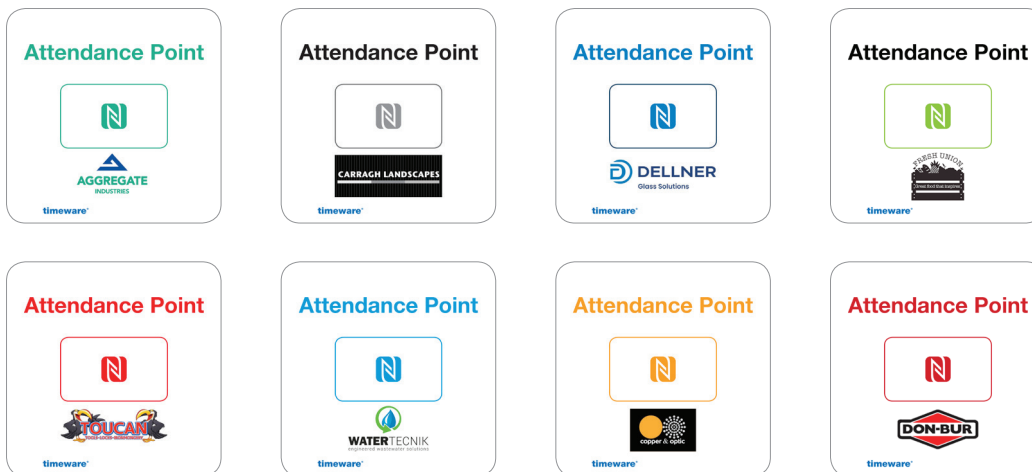

The **timeware® ESS Go** solution, paired with low-cost **Puck attendance points** (just £80 each), offers a smart, affordable way to manage time and attendance – with **no cabling** and **no biometric hardware** required.

Employees simply tap their phone near the Puck to record their arrival or departure. The ESS Go app captures the date and time, instantly updating the timeware® system for real-time visibility.

Ideal for **hybrid workers, remote sites, mobile teams, and temporary setups**, offering an affordable, easy-to-deploy solution for SMEs.

News – timeware® live at The Security Event 2025...

A Fantastic opportunity

timeware® has been invited to share the **Suprema stand** at the **Security Event 2025**, held at the NEC Birmingham – a fantastic opportunity to showcase our expertise alongside one of the industry's leading access control manufacturers.

Attending this event is important to us because it allows potential partners and clients to see **timeware® Professional** in action, integrated with Suprema's cutting-edge biometric devices. Sharing the stand not only strengthens our relationship with Suprema but also helps position timeware® as a **trusted, professional** solution provider within the security and attendance market. It's a proud moment and a key part of our 2025 strategy.

timeware® implementation specialist Dave Webb with Suprema UK Managing Director, Jamie McMillen at Security Event 2025.

Other Case Studies – Salisbury Poultry...

Salisbury Poultry: The Best of Tailored Workforce Management

For nearly 20 years, Salisbury Poultry has relied on timeware® to expertly manage their workforce, now exceeding 1,000 employees. With a system customised to perfection, timeware® Professional integrates seamlessly with Suprema BioEntry W2 and BioStation 3 devices, utilising advanced face authentication and fingerprint recognition technology.

This innovative combination ensures precise time and attendance tracking, enhancing operational efficiency and supporting their sustained growth.

Discover how these cutting-edge solutions power their success by watching our short case study on YouTube.
