

Welcome to the latest edition of insider.

Are your clients searching for a smarter way to manage HR, Time and Attendance?

Look no further than timeware® Professional.

This powerful solution simplifies every aspect of workforce management, whether it's tracking hours, managing holidays, or maintaining accurate personnel records. With timeware® Professional, your clients benefit from streamlined processes, real-time data, and a significant boost in productivity.

If you know a business in need of a **reliable time and attendance system**, recommend **timeware®**. We'll be happy to arrange a demonstration and show how easily it can transform day-to-day operations.

Let's help your clients take control.

timeware® feature in focus - Paxton integration...

Transform Access Records into Attendance Data with Paxton Integration in timeware® Professional.

timeware® Professional's Paxton-approved integration offers a powerful way to leverage your existing access control hardware, converting access records into comprehensive attendance data. This integration allows you to manage both access control and attendance tracking through a single, unified system.

Key Benefits:

- **Dual-Purpose Efficiency:** Utilise existing Paxton access hardware to seamlessly track attendance, eliminating the need for separate devices.
- **Accurate Attendance Data:** Convert access logs into reliable attendance records, ensuring precise workforce management.
- **Cost-Effective:** Maximise your current hardware investment by extending its functionality to include attendance tracking.
- **Simplified Management:** Streamline your operations by managing access and attendance within one integrated platform.

Unlock the full potential of your systems with the timeware® Professional and Paxton integration, turning your access control into a powerful attendance management tool.

Case Study - A1 Bacon...

A1 Bacon is a respected name in British food manufacturing, slicing premium bacon from its BRCGS AA-grade facility in Harlow, Essex for over 40 years.

Serving the foodservice, retail and hospitality sectors, the business is known for its precision and reliability. Since installing timeware® Professional in 2011, A1 Bacon has consistently invested in workforce technology to support efficient operations.

In 2024, the company enhanced its setup by integrating timeware® Professional with HiBob HR. This upgrade improved visibility across attendance, absence and HR processes - boosting efficiency, compliance, and employee engagement.

As part of this transformation, A1 Bacon also upgraded its attendance and access points to Suprema biometric devices. This delivers a contactless experience for staff and a reliable audit trail for managers. The combined solution of timeware®, HiBob and Suprema reflects A1 Bacon's ongoing commitment to security, efficiency, and innovation.

Smart Attendance for Workplaces with Limited Infrastructure

Looking for a cost-effective way to manage attendance without the need for cabling or biometric hardware? Introducing **timeware® ESS Go** – the ideal solution for SMEs, hybrid teams, remote sites, and temporary setups.

When paired with low-cost Puck attendance points – available at just £80 each – ESS Go delivers a simple yet powerful approach to time and attendance. Employees simply tap their smartphone near the Puck to record their arrival or departure. The ESS Go app captures the date and time instantly, feeding data directly into the timeware® system for real-time visibility.

This flexible, easy-to-deploy solution is perfect for organisations with minimal infrastructure – enabling accurate attendance tracking wherever your team is based.

News - Business partnerships that work!...

A productive meeting earlier this month at Suprema UK's headquarters in Birmingham.

timeware® Implementation Specialist, **Zack Dawson**, met with **Suprema UK's** Business Development Manager, **Sean Grigg**, and **Suprema Inc.'s** Product Manager, **Kiyup (Michael) Lee**.

One of the main points of discussion was the integration between timeware® Professional and timeware® Cloud with Suprema's latest software platforms – BioStar X and BioStar Air.

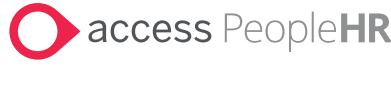

Thank you, as always, to our colleagues at Suprema for your warm hospitality and continued support. Together, we're shaping the future of cloud-based HR, Time and Attendance.

Our integrations include:
