Script Name:

Award Amount Based on Month Formula

Script Type:

Absence Entitlement

Overview

This script is designed to pro rata an employee's entitlement based on Months and is to be placed in the script option of the Absence Entitlement Policy in 0–1-year bracket only. This script does not round so values may be to several decimal places.

Dependencies

No dependencies.

Operation Example

- No operation required. The system will automatically pro rata the entitlements for employees.

Configuration

- Assigned within the "Absence Entitlement Policy" in the "script" option on the "Less than one year" row.
